

MILLBORN'S

Double Barrel

Double Barrel is highly desired by upland game birds, providing them with the daily energy and protective structure necessary for survival during the harshest fall and winter days.

Ingredients: Red Grain Sorghum (Milo)

Why is Double Barrel a great choice for food plots?

- Easy to establish
- Excellent food and cover source during fall and winter months
- Ranges 3.5' – 5' in height, promoting excellent hunting
- 80 – 95 day maturity

To establish a successful food plot:

- Seeding Dates: mid-May through late June
- Seeding Rates: 10 lbs/acre (drilled) or 15 lbs/acre (broadcasted) at 1/2" to 1" deep
- Herbicide Use*: Preplant – Glyphosate
Postplant – Atrazine, Buctril®, Clarity® or 2,4-D

Millborn's Double Barrel is available in 50# bags.

*Refer to herbicide labels before use.
