

MILLBORN'S

# Winter Green

Winter Green is specifically designed to provide your deer and turkey populations with an alternative, nutritious food source throughout the fall and winter months.

**Ingredients:** Cowpeas, Forage Oats and Winter Wheat

Why is Winter Green a great choice for food plots?

- Easy to establish
- Resilient "green" food source is highly attractive to deer and other wildlife
- Perfect for small hunting plots
- Ready to hunt in 2 – 3 weeks

To establish a successful food plot:

- Seeding Dates: Fall (early to mid-September)
- Seeding Rates: 50 lbs/acre (drilled) or  
75 lbs/acre (broadcasted) at 1/2" to 1" deep
- Herbicide Use\*: Preemergence – Glyphosate

Millborn's Winter Green is available in 50# bags.

\*Refer to herbicide labels before use.
