Description:

AEC Premier Straw Double Net erosion control blanket is a natural, stitched straw blanket that provides a temporary organic cover to reduce erosion, protect seeds, enhance germination, and hasten re-vegetation. AEC Premier Straw Double Net rolls are stretch wrapped to protect against the elements prior to installation, and may be ordered in Master-Paks of fifteen rolls banded together to minimize handling requirements.

AEC Premier Straw Double Net has a design soil loss ratio (event-based RUSLE C factor) of .05 and is typically suitable for slopes up to 2:1. AEC Premier Straw Double Net is rated for channel flows up to 7.0 ft/s (2.1 m/s) and 1.75 lb/ft² (84 Pa) shear stress.
