

SINGLE SPECIES

TECH SHEET

CHUFA

Chufa is a popular food plot choice, specifically for turkeys. It is classified as an annual nut sedge that is a legume that forms large edible underground tubers or nuts. The nuts are sought after by scratching turkeys, making it an ideal species for food and hunting plots.

AGRONOMICS

| | |
|-----------------------|---|
| Seeding Rate | 50 lbs/acre (when soil temperatures are above 60 degrees F) |
| Seeding Depth | 1 inch |
| Package | 50 lb bag |
| Planting Instructions | Plant into a clean, firm seed bed when drilling or broadcasting |
