

SINGLE SPECIES

TECH SHEET

CROWN VETCH

Crownvetch is a persistent perennial legume. It creates very palatable forage for both livestock and wildlife. It is best used for grazing or haying systems as there is little to no bloat risk. It performs best where both drainage and fertility are adequate.

AGRONOMICS

	Cool Season Perennial
Seed Count	110,000 seeds/lb
Seeding Rate	20 lbs/acre
Seeding Depth	1/4 inch
Planting Time	March-May/August-October
Days to First Grazing	100 days
Vegetative Height	Up to 24 inches
Bloom Color	Pink
Package	50 lb bag
