

## ALFALFA

### SALINITYMAX 4.0

- Salt tolerant alfalfa with excellent yield potential
- Protected by a solid disease resistance package

SalinityMax 4.0 is a high yielding alfalfa selected for salt tolerance. It's branch root expression further helps with persistence in challenging conditions. SalinityMax 4.0 provides impressive forage yields in both saline and highly productive soils.

#### AGRONOMICS

Package Size	50 lb bag
Fall Dormancy	4.0
Winter Survival	1.8
Forage Yield	9
Forage Quality	Very High
Root Type	Tap Branch
DRI	35/35 <ul style="list-style-type: none"><li>◦ Bacterial Wilt: HR</li><li>◦ Fusarium Wilt: HR</li><li>◦ Verticillium Wilt: HR</li><li>◦ Anthracnose: HR</li><li>◦ Phytophthora Root Rot: HR</li><li>◦ Aphanomyces Race 1: HR</li><li>◦ Aphanomyces Race 2: HR</li></ul>
Nematode	Stem Nematode: R
