

MS9031

MS9031 alfalfa is a fall dormancy 9 alfalfa that was selected for high yield potential in saline and non-saline environments. MS9031 has a very good disease and pest package allowing this product to perform well in a wide range of environments where non-dormant varieties are desired.

- Excellent yield in both saline & non-saline environments
- Great choice where aphid tolerance is required, including Blue Aphid, Pea Aphid, and Spotted Alfalfa Aphid
